

MOTLOW STATE COMMUNITY COLLEGE

Office of the President

Dear Prospective Student,

The Middle Tennessee Education Center (MTEC) is a partnership with Middle Tennessee State University where both schools offer courses in Shelbyville, TN. Motlow State Community College began offering classes at MTEC in Spring 2010, and the college looks forward to growing opportunities there and continuing to serve students at this location.

Conveniently located near Lynchburg, Fayetteville, Tullahoma, and Murfreesboro, Motlow State Community College offers courses toward Emergency Medical Technician certificates or the Associate of Applied Science in Paramedic, as well as business courses. Other general education courses are offered based on student demand; we invite you to check course schedules for specific classes offered each term at MTEC and to call (931) 685-4444 or come by the office at 200 Dover Street to speak with a representative.

We look forward to serving you!

Sincerely,

Anthony G. (Tony) Kinkel

President
