

For teachers who wish to pursue 30+ hours!

Middle Tennessee State University will offer **PSCI 5030 Experimental Physical Science** at MTEC this Spring, 2011. This is a great opportunity to either begin or continue your "Plus 30" hours of graduate work!

This 4-hour graduate course involves basic concepts, laws, and principles of astronomy, chemistry, geology, and physics with an emphasis on the utilization of equipment available in actual school situations. *This class will meet at MTEC on Wednesdays from 4-10 p.m.*

Spring semester classes begin January 13th.
PSCI 5030 will begin January 19th.
